

GAIA : AT THE FRONTIERS OF ASTROMETRY

7-11 June 2010, Sèvres (France)

HEAD COORDINATOR

Catherine Turon, Observatoire de Paris

LOCAL ORGANISING COMMITTEE

Yves Viala (Chair)
Frédéric Meynadier
Frédéric Arenou
Céline Delle Luche
Daniel Hestroffer
Nicolas Leclerc
Olga Martins
Annick Oger
Mireille Petit
Michael Weiler

TOPICS

Space Astrometry
Gaia: status and modelling
Detectors in the space environment
Data analysis and numerical methods
Spectroscopy and astrophysical modelling
Photometry and variability analysis
Galaxy formation and evolution
Stellar physics and evolution
Solar system objects
Gaia in the 2015 context

SCIENTIFIC ORGANISING COMMITTEE

Anthony Brown, Leiden Observatory
Ronald Drimmel, Istituto Nazionale di Astrofisica
Stefan Jordan, Astronomisches Rechen-Institut ARI/ZAH
Mary Kontizas, National and Kapodistrian University of Athens
Lennart Lindegren, Lund Observatory
Thibaut Prod'homme, Leiden Observatory
Paola Re Fiorentin, Istituto Nazionale di Astrofisica
Daniel Risquez, Leiden Observatory
Michael Weiler, Observatoire de Paris

ELSA FINAL CONFERENCE

Deadline for early registration: 16 april 2010
